

TOTAL DUST MANAGEMENT

The *Solution* is Clear

Our aim is to manage ALL your project's dust issues, allowing you to carry on with day to day activities in a safe and productive manner.

RST's Total Dust Management philosophy is to provide leading edge products, application equipment, systems and support which offer our clients the most effective and economical solutions for solving and managing all their dust problems.

RST has over 25 years experience offering Total Dust Management to the Mining, Civil Construction, Processing and Materials Handling Industries.

All of **RST's** programs and products are independently tested and evaluated by qualified engineers

RST'S SEVEN STEP SOLUTION

- **RST** will evaluate your problem
- Develop a solution
- Recommend, communicate & agree on a solution
- Design & install mechanical systems
- Implement the solution
- Monitor the results
- Report, validate & recommend further strategies

NEW TECHNOLOGY

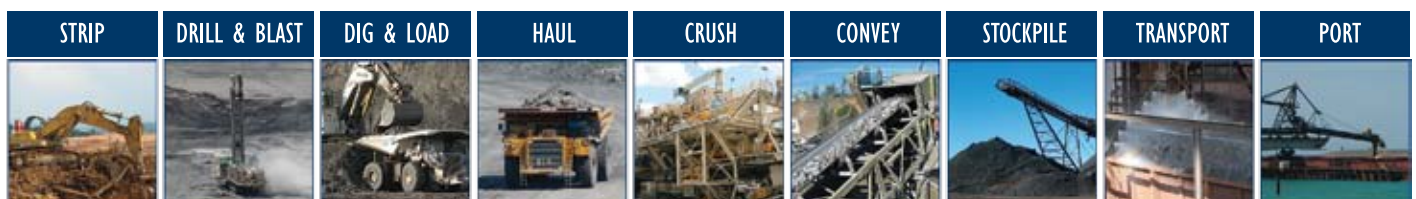

Superskins

Stockpile & Exposed Ground Crusting Agent

- Suitable for all forms of exposed stockpiles, ground, sand, minerals and tailings
- Forms a strong, durable and 'flexible' crust
- Eliminates dust liftoff with a single application
- Groundbreaking technology that uses 90% less product than our competitors, making it much more cost effective
