

KICKSTART

A 'SUPERBOOST' FOR RT9 HAUL ROAD DUST SUPPRESSANT

BENEFITS

- A 'SuperBoost' to RST's road watering products
- Used as a pre-treatment to RT9 Water Extender's Haul Road Management System
- Builds up required product residuals in the road surface - fast
- Effective in treating hard to control dusty 'Hot Spots'
- Fast , instant results

DESCRIPTION

Kickstart is a concentrated blend of surfactants (wetting agents) used as a 'Super Boost' for RST's road watering products. Used as a pre-treatment to RT9 Water Extender and Heavy Water products, the addition of Kickstart will increase the initial reaction time of these by adding a concentrated dose of blended surfactants into the road surface material.

- Accelerates the products roads compaction process
- Allows the water sprayed on the road surface to penetrate easily
- Breaks the surface tension created between the water sprayed on the road surface and road material
- 100% Environmentally Safe

APPLICATION

Kickstart is mixed with water and sprayed over the haul road surface prior to applying RT9 Water Extender or Heavy Water

HEALTH, SAFETY, ENVIRONMENT AND THE COMMUNITY (HSEC)

RST strives, through a process of continuous improvement, to fully integrate health, safety, environmental and community (HSEC) consciousness into all aspects of its activities
