

## KICKSTART DYNAMIC

A 'SUPERBOOST' FOR RST HAUL ROAD DUST SUPPRESSANTS

### BENEFITS

- A 'SuperBoost' to RST's road watering products
- Used as a pre-treatment to RST Haul Road Management System
- Builds up required product residuals in the road surface - fast
- Effective in treating hard to control dusty 'Hot Spots'
- Fast , instant results

### DESCRIPTION

Kickstart Dynamic is a concentrated blend of surfactants (wetting agents) used as a 'Super Boost' for RST's road watering products. Used as a pre-treatment to RST Dust Suppressant products, the addition of Kickstart Dynamic will increase the initial reaction time of these by adding a concentrated dose of blended surfactants into the road surface material.

- Accelerates the products road compaction process
- Allows the water sprayed on the road surface to penetrate easily
- Breaks the surface tension created between the water sprayed on the road surface and road material
- 100% Environmentally Safe

### APPLICATION

Kickstart Dynamic is mixed with water and sprayed over the haul road surface prior to applying RST's Dust Suppressant product.

### HEALTH, SAFETY, ENVIRONMENT AND THE COMMUNITY (HSEC)

RST strives, through a process of continuous improvement, to fully integrate health, safety, environmental and community (HSEC) consciousness into all aspects of its activities
